

User manual

There are two types of users in eQuATIC. The user manual includes sections for the institutional administrator and for the institutional user.

The institutional administrator (advanced user)	The institutional user
<p>The institutional admin is the advanced eQuATIC user who has access to user management, data uploads, the list of institutions in eQuATIC, and management of score interpretation. The number of institutional admins is typically limited per institution.</p> <ul style="list-style-type: none">• User management• Data uploads• Score interpretation	<p>The standard user has access to quality reports describing the cooperation with a certain institution based on the indicators. The reports also explain how the indicator scores are calculated. The institution also has access to an overview of indicator scores.</p>
