

# Activating EWP Network connection

## Video Tutorial

## Activating connection

<p><b>1. Log-in to your Erasmus Dashboard account</b></p>	<p><b>Dashboard β</b> My University &gt; General Info</p> <p><b>My University</b></p> <ul style="list-style-type: none"><li>General info</li><li>Accounts and Access</li><li>Organizational Units</li><li>My settings</li><li>Covid-19</li><li>Logout</li></ul> <p><b>Mobilities (OLA 3.0)</b></p> <ul style="list-style-type: none"><li>Outgoing students</li><li>Incoming students</li><li>Upload</li></ul> <p><b>Short-Term Mobilities</b></p> <ul style="list-style-type: none"><li>Outgoing students</li><li>Incoming students</li></ul> <p><b>Mobilities (OLA 2.0)</b></p> <ul style="list-style-type: none"><li>Outgoing students</li><li>Incoming students</li></ul>
<p><b>2. Scroll down on the left-hand side to the “EWP” menu section and click on “Settings”</b></p>	<p><b>Dashboard β</b> Ewp &gt; Settings</p> <p><b>Erasmus</b></p> <ul style="list-style-type: none"><li>Outgoing students</li><li>Incoming students</li><li>Requirements</li></ul> <p><b>IIA manager</b></p> <ul style="list-style-type: none"><li>IIA List</li><li>New Digital IIA</li><li>Import IIA</li><li>Default IIA Data</li><li>FAQs</li></ul> <p><b>EWP</b></p> <ul style="list-style-type: none"><li>Website</li><li><b>Settings</b></li></ul> <p><b>Support</b></p> <ul style="list-style-type: none"><li>FAQs</li><li>Tutorials</li><li>Documentation</li></ul> <p><b>External Services</b></p> <ul style="list-style-type: none"><li>EGRACONS</li></ul>

### 3. Click on Enable EWP.

After you click on 'Enable EWP' a pop up will appear confirming you have successfully connected to the EWP network. You will only have to do this the first time you connect your organisation to the EWP network.

The screenshot shows the 'Ewp > Settings' page. On the left is a navigation menu with categories: Erasmus+, IIA manager, EWP, Support, and External Services. The 'Settings' option is highlighted. The main content area shows the current SCHAC code and an 'Enable EWP' button. A dark pop-up message at the top right states: 'The connection to the EWP network was successfully enabled.' with an 'OK' button.

### 4. The EWP Settings section should now look like this.

This is the screen you will now be able to see from now on after enabling connection to the EWP network.

The screenshot shows the 'Ewp > Settings' page with the 'Enable EWP' button replaced by three agreement questions. Each question has radio buttons for 'No' and 'Yes', and a 'Save' button. The current SCHAC code is 'brussels.uni-foundation.eu'. The questions are: 1. 'Do you agree that the Dashboard represents your higher education institution in the EWP Network to exchange inter-institutional agreements with your partners?' (No selected). 2. 'Do you agree that the Dashboard represents your higher education institution in the EWP Network to exchange the static information for inter-institutional agreements with your partners?' (No selected). 3. 'Should the Dashboard represent your higher education institution in the EWP Network for the purpose of enabling the electronic exchange of the Online Learning Agreement information?' (No selected).

### 5. Click "Yes" individually to the questions:

- *Do you agree that the Dashboard represents your higher education institution in the EWP Network to exchange inter-institutional agreements with your partners?*
- *Do you agree that the Dashboard represents your higher education institution in the EWP Network to exchange the static information for inter-institutional agreements with your partners?*

The screenshot shows the 'Ewp > Settings' page with the same three agreement questions. The 'Yes' radio button is now selected for the first two questions. The third question remains unchanged with 'No' selected. The 'Save' buttons are visible for each question.

### 6. Click "Save"

After you clicked on "Save" each time, an **automatic pop-up** will show that you successfully changed EWP IIA API. Which means the settings are ready and you can now be able to see, create and sign IIAs on the Dashboard.

## 7. Please refresh the page,

and make sure that the settings are saved. Now, when you **click on "Settings"**, you should see that the Dashboard is representing your institution in the EWP Network for the purpose of enabling the electronic exchange of Inter Institutional Agreement information (it might take a couple of minutes for the system to register the updated status).

- If this is not the case, please start the procedure from the beginning.
- If the system still does not save your settings, please **report it using the bug report page**.

## Deactivating connection

You can deactivate the Inter-institutional Agreement API via the Erasmus Dashboard EWP Settings section by simply turning it off (click on "No"):

1. Please follow instructions of **step 2 and 4** of this guide above.
2. In **step five**, instead of clicking on "Yes", **click on "No" and then on "Save"**
3. **Wait** a couple of minutes while the system saves the new settings.

You can see the overview of the APIs activated for your HEI here: <https://registry.erasmuswithoutpaper.eu/coverage> as well as the party representing you in the EWP Network here: <https://registry.erasmuswithoutpaper.eu/manifestsOverview> - just search by your SCHAC code.
