

Managing the Applications

4. Managing the Applications

Higher Education Institutions then can manage the students' applications in the Incoming and Outgoing Students sections by using diverse data sorting, searching and filtering tools.

Name	Academic Year	Academic Term	Status
Obi-wan Kenobi	2023/2024	Second trimester	Accepted By Sending
Han Solo	2021/2022	First semester (Winter/Autumn)	Accepted By Sending
Nikolaos Saoulidis	2022/2023	First semester (Winter/Autumn)	Cancelled
George Papaioopoulos	2021/2022	First semester (Winter/Autumn)	Accepted By Sending
Wim Gabriëls	2022/2023	First semester (Winter/Autumn)	Cancelled
Wim Gabriëls	2022/2023	First semester (Winter/Autumn)	Accepted By Student

It allows navigating to the individual applications view as well as exporting all applications information - basic academic data as well as all attachments.

Individual Applications allow for diverse actions to be carried out.

Reject: Student application is rejected as a whole and they would not be nominated for any of the potential destinations they have selected. Students receive a notification stating the fact.

Delete: The whole application data is removed - the student is also informed.

Waiting List: Student application is put on the waiting list and can still be accepted or rejected. The student gets a notification.

Accept: Home HEI is ready to send the student to a specific location. Student receives a notification with an invitation to confirm their readiness to go to the said location. Only when the student confirms - the Host HEI would see the student information in the Incoming students' section on the Erasmus Dashboard.

Student Info
Name: Wim Gabriëls
Email: wim.gabriëls@erasmus.org
Study Field: Information and Communication Technologies (ICT)
Study Level: Master's degree
Academic Year: 2022/2023
Application submission time: 21/10/2021, 14:49 CEST

Application Documents
