

MyAcademicID

Welcome to the **MyAcademicID (MyAID) space** of this knowledge base.

The **purpose** of this wiki space is to:

- **provide information** about the MyAID project
- **clarify what is:** ESC, ESCI, eduGAIN, ESI, NREN, eIDAS or eID therefore
- **explain why authentication is important** when using the different Erasmus+ mobility management tools and how a HEI can apply this in their own institutions.

To get more information about the MyAID project and authentication and identification in higher education mobility management tools please click to the menu here, and then use the page tree on the left to navigate between the different menu pages.

About	Functionalities	How to join	MyAcademicID FAQs	How-to-articles

If you would like to get **more information** about the elements of the Erasmus+ digital mobility management infrastructure, you can click to the spaces here.

Provide seamless access to mobility management services and tools

Click on the link above and discover how you and your students can securely log in to these tools using your academic credentials.

Use the Erasmus Dashboard as free solution for managing student mobility

Tool for universities not using in-house or commercial software.

Promote the Erasmus+ App as main gateway for mobile students

Publish events and deals or add useful information to the Erasmus+ App mobility journey.

Exchange information with your partners

Connect to Erasmus Without Paper and exchange data along with exchanging students in the framework of Erasmus.

Technical profile?

If you have a technical profile, you can check the specific resources for developers:
