Default IIA Data

The Inter-Institutional Agreement Manager allows for easy editing of the values of the general data on the higher education institutions that apply to all Inter-Institutional Agreements.

Such profile information then can be updated as necessary without re-signing the Inter-Institutional Agreements and making sure the data is easily accessible to the partner HEI as well as the student.

The general information about the institution is accessible to students via the Erasmus+ App as per European Student Card Initiative attempts to make sure students have the key information available to them.
