

Erasmus Dashboard

The **Erasmus Dashboard** is available to all Higher Education Institutions in Europe and was designed specifically for institutions that are currently not using any digital solution to manage their Erasmus mobility management.

It is a **free-to-use** tool providing you with the basic functionality needed to manage the processes of Erasmus+ student mobilities. The Erasmus Dashboard is connected to the Erasmus Without Paper network allowing data exchanges with partners using in-house software or 3rd-party software for the management of mobilities. Here you will find a step-by-step guide to [activate the EWP connection](#).

The Erasmus Dashboard also connects to the European Commission's [Erasmus+ Mobile App](#), allowing you to communicate with the incoming and outgoing students directly via the App.

For more information about the Erasmus Dashboard and its functionalities, visit the dedicated space for the Erasmus Dashboard [here](#).
