

How can I edit Erasmus Plus Covid-19 Mobility Status section

In case you are **unable to access the Covid-19 section**, your colleagues can make sure that you have access in the following way:

1. Main institutional account holder or any staff member with permission to edit Accounts and Access set-up signs in.
2. Under 'Accounts and Access' a new role can be created, or an old one modified, that includes the permission to access the Covid-19 settings (left-hand side of the page).
3. Add a new account and select the newly created role (right-hand side of the page). The nominated staff will receive an email with which they will be able to access the Dashboard and the Covid-19 settings.

Please also see more information [here](#).
