Which problem is MyAcademicID solving

MyAcademicID is building an infrastructure to implement the European Commission objective to "enable every student to easily and safely identify and register themselves electronically at higher education institutions within Europe when moving abroad for studies, eliminating the need to complete onsite registration procedures and paperwork". The use of the Erasmus Without Paper network will become obligatory according to the below milestones:

- 2021 – to manage online learning agreements
- 2022 – to manage inter-institutional agreements
- 2023 – to exchange student nominations and acceptances and transcripts of records related to student mobility
