

Will the Erasmus Dashboard be upgraded with new functionalities

Very much so – there will be many more services and functions to the Dashboard added with a view to support the integration of course catalogues in the OLA and in-depth integration of OLAs for traineeships. We are also working towards supporting the International Credit Mobility (KA107) and After Mobility or Transcript of Records part of the Online Learning Agreement.

We are also joining forces with the EWP network to provide you with tools to manage your Erasmus+ inter-institutional agreements online, ease the conversion of grades and allow electronic exchange of data with the Mobility Tool+.

Stay tuned!
