How to join

Who can join?

In order to join the EWP Network institutions need to have an Erasmus Charter for Higher Education; accordingly organizational units of a given HEI (faculties, departments) are not allowed to connect to the network on their own. You don't join or register for EWP personally, your institution does.

When your institution wants to join the EWP network, the first step is to decide which category of user you are.

Different scenario's for joining Erasmus Without Paper

For more info on the different scenario's for joining Erasmus Without Paper:
