

Webinar: Meet the Erasmus Plus App - 29 April 2021

Erasmus Goes Digital webinar “Meet the Erasmus+ App”

Date: 29 April | Time: 10:00-11:00 CEST

Follow the recording [here](#).

About this webinar

The main goal of the Erasmus+ App is to provide easy access to information and services to substantially improve the quality of the Erasmus+ mobility experience. To achieve this goal, higher education institutions have a key role to play and will have several points of interaction with the App to communicate with their students. Join us and learn all about it during the first Erasmus Going Digital webinar!

A smartphone screen showing the Erasmus+ app interface. The top navigation bar is purple with icons for 'Erasmus+ mobility', 'Before application', 'During application', 'After application', and 'Erasmus+ app'. The main content area is titled 'Before application' and features a video of a woman sitting on a laptop. Below the video is a section titled 'Erasmus+ at your fingertips!' with a '# General' hashtag and a heart icon. At the bottom of the screen is a blue banner with a woman wearing headphones and holding a book, and the European Commission logo.
