Upcoming Events

Currently, there are no events planned, but stay tuned because new ones will come up soon! The last event was the **Erasmus+ App conference in Budapest**, read more about it below and follow this link if you want to watch it on YouTube.

During the conference of the Erasmus+ App of 29 March 2022, we went beyond the new features of the App, and discussed, shared and reflected on the first user experiences!

We explored how to make better use of the potential of the Erasmus+ programme, by means of the variety of digital tools, and took a look to the future, projecting the evolution of the App in the upcoming years.

The event was held both online and physically, so you can (re)watch it on YouTube if you wish!
